

WHY DID WE GO TO WAR?

For the oil? — To liberate the people of Iraq?

To stop Saddam from building weapons of mass destruction?

Because Saddam had ties to al Qaeda?

Because Iraq was a threat to U.S citizens?

Find out the truth Sunday June 8th

Fran Shor, Ph.D. will speak on the theme:

The origins of the War in Iraq

Dr. Shor is a professor of Interdisciplinary Studies at Wayne State University, having earned his doctorate in American Studies from the University of Minnesota.

Did you know that the invasion of Iraq was in the planning for a dozen years?

Did you know that Iraq had no operational weapons of mass destruction?

Did you know that a conservative think-tank first voiced today's national security strategy before September 11?

Did you know that key members of the Bush cabinet proposed "removal of Saddam Hussein's regime from power" in 1998?

Sunday, June 8th 1:30pm
